

The screenshot displays the EAST database interface. On the left, a sidebar lists document categories: Drafts, BRS, Pending, Active, Failed, Saved, Favorites, Tagged (0), UDC, Queue, and Trash. The 'Active' category is selected, showing a list of documents with their IDs and titles. The main window displays a detailed view of a document, including its title, current OR, current XR, retrieval status, and inventor information. Below this, a table lists the document's history, including previous versions and their respective dates and titles.
